PROFESSIONAL SUMMARY

Dedicated PhD graduate in Metallurgy with research experience in fatigue behaviour, material characterization, and aluminium alloy processing. Proficient in mechanical testing methods, including tensile, fatigue, microhardness, and wear analysis, as well as microstructural characterization using optical microscopy, XRD, SEM, and FE-SEM. Experienced in specimen preparation and data interpretation for various alloys. Skilled in utilizing metallurgical testing equipment and committed to advancing research in sustainable materials and processing techniques. Motivated to apply expertise in metallurgy to research-driven projects and industrial applications, with a collaborative and analytical approach to problem-solving.

EDUCATION

Ph.D. in Mechanical Engineering, SASTRA Deemed University, Thanjavur, India. June, 2018 – Feb, 2025

M. Tech in Advanced Manufacturing, SASTRA Deemed University, Thanjavur, India. June 2016 – May 2018

B.E in Automobile Engineering, Government College of Engineering (formerly IRTT), Erode, India. Aug 2012 – May 2016

RESEARCH EXPERIENCE

Research Scholar – Dr. S. Ramesh Kumar, Assistant Professor, SASTRA Deemed University, Thanjavur, India – 2018 to 2024

- Conducted doctoral research on enhancing low cycle fatigue (LCF) properties of Aluminium 6063 Alloy. Implemented a multifaceted approach including heat treatment (HT), Deep Cryogenic Treatment (DCT), and Equal Channel Angular Processing (ECAP).
- Employed microstructural characterization to study grain refinement and intermetallic particle formation post-processing. Evaluated mechanical properties and performed fractography to understand the fatigue failure mechanisms.

Post-Graduate Student – Dr. Sreehari Peddavarapu, Assistant Professor, SASTRA Deemed University, Thanjavur, India – 2016 to 2018

- Master's thesis focused on fabricating graphene oxide-reinforced aluminium matrix via powder metallurgy.
- Evaluated mechanical properties, including tensile strength and tribological characteristics. Optimized compositions of graphene oxides in aluminium matrix to enhance tensile and tribology behaviour.

Undergraduate Student – Dr. Subramanian. R, Professor, Government Engineering College, Erode, India. – 2012 to 2016

- Conducted project work on enhancing fuel efficiency in multi-cylinder diesel engines via cylinder deactivation technology.
- Systematically disabled cylinder combinations to reduce engine displacement, improve fuel economy efficiency, and decrease emissions.

TEACHING EXPERIENCE

Teaching Assistant, School of Mechanical Engineering, SASTRA Deemed University, 2018-2024. As a Lab Instructor, I handled the following courses for Engineering students.

- Basic Mechanical Engineering
- CAD/CAM Laboratory
- Metallurgy Laboratory
- Dynamics Laboratory
- Manufacturing Practices Laboratory

TECHNICAL SKILLS

- **Materials Testing Equipment:** Tensile Testing Machine, Fatigue Testing Machine, Microhardness Tester, Wear Testing Machine.
- **Microstructure Characterization:** Optical Microscopy, SEM, FE-SEM, XRD
- **Software:** AutoCAD, CREO, SolidWorks, ANSYS, Deform3D.

PATENT

- *Intellectual Property India*, Application No. 202341047769, "*An Apparatus for Artefact Knitting*," filed on 15/07/2023 by Ramesh Kumar S, Santhosh Kumar S, and *Sreearravind M.* The patent describes a plate welding fixture assembly with magnets for improved alignment and stability in *MIAB welding*.

CONFERENCE PRESENTATIONS

- Low Cycle fatigue behaviour of Aluminium 6063 alloy under the cyclic frequency of 0.2Hz. International Conference on Materials, Method and Manufacturing (ICMMM 2019) - by Dept. of MME at NIT, Trichy. June, 2019
- Low Cycle Fatigue behaviour of heat-treated EN-47 Spring Steel. International Conference on Materials Manufacturing and Modelling (ICMMM 2019) - by Dept. of ME at VIT Vellore. July, 2019
- Analysis of fatigue life for HT Al 6063 at different quench medium. Recent Trends in Metallurgy, Materials Science and Manufacturing (IMME 2019) – by Dept. of MME at NIT, Trichy. Nov, 2019
- Evaluation of fatigue fracture in reinforcing bar under a constant strain amplitude of 0.8%, International Conference on Empowering Engineering and Technology (ICEET 2020) at PITS, Thanjavur. March 2020

Date: 11.11.2025

Place: Dindugul

Sincerely

Sreearravind M
